Subject: Internship Request Machine Learning and Deep Learning Opportunities

Dear Dr. Nagaraju K

I hope you are doing well. I am Nishant Goel, currently pursuing a master's degree in computer science in 2nd year at Gautam Buddha University. I write to express my interest in research internships under your guidance in the field of machine learning and deep learning in Indian Institute of Information Technology, Design and Manufacturing, Kurnool.

I have a strong academic interest in artificial intelligence and have explored topics such as machine learning, neural networks, and deep learning models through coursework and personal projects. I strive to gain practical research experience and create wise contributors to be carried out in your lab. According to the mentor, an internship will be a valuable opportunity for me to gain a better understanding of the field and use my knowledge in a real research environment. I appreciate the opportunity to work with you and your team.

I have attached my resume for your kind consideration. Please let us know if you need any additional information.

Thank you for thinking about my request. I look forward to working under your direction.

Sincerely,
Nishant Goel
